OUR CITY is fast filling up. The arrivals for the last fortnight at the hotels tell of the near approach of the session, and make those excellent houses wear an air of business, such as they rarely have except during the sessions of Congress. We presume that there are many more strangers among us, at this time, than at any previous time since the close of the last session. Our merchants, too, have already experienced the increased demand for their wares usual shortly before the first Monday in December.
